

# 分析报告-差异性说明

- Microsoft Office与WPS Office的引用资源差异
- Word/WPS文字与PPT/WPS演示的引用资源差异

## Microsoft Office与WPS Office的引用资源差异

Microsoft Office与WPS Office在导入表格、数据作图时存在差异，具体说明如下：

| 差异   | 说明                                                                                                                                                                              | 图示                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                               |         |     |         |         |     |     |           |         |       |    |         |        |       |     |        |        |         |    |         |        |       |    |           |         |         |    |     |           |          |       |    |         |         |       |     |         |        |       |    |         |         |       |    |           |         |       |    |    |     |         |         |     |   |   |   |   |     |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |   |  |   |   |  |  |  |   |  |  |  |

## Word/WPS文字与PPT/WPS演示的引用资源差异

Word/WPS文字与PPT/WPS演示在功能上无差异，只在引用资源的展现上存在差异。

以Word与PPT为例：

| 差异 | 说明 | 图示 |
|----|----|----|
|----|----|----|

报表数据引用关系信息

在Word文档“导入参数、导入图片、导入表格、定位单元格、可视化挑选、数据作图”后在文档里是有对应的报表数据引用关系信息，但是PPT没有。

因此操作清除数据后，Word存在报表数据引用关系信息，可以很清楚地知道报表数据引用关系是存在的，但是PPT是没有显示的。

引用“市场需求之车类级别”表格

| 车类  | 级别  | 销售量       | 销量的同期增长  | 销量的同比增率 |
|-----|-----|-----------|----------|---------|
| SUV | 紧凑  | 1,142,592 | 133,860  | 13.3%   |
|     | 小型  | 382,229   | 62,263   | 19.5%   |
|     | 中大型 | 23,150    | 21,321   | 1165.7% |
|     | 中型  | 289,169   | 27,354   | 10.4%   |
|     | 合计  | 1,837,140 | 244,798  | 1208.9% |
| 轿车  | 紧凑  | 1,613,141 | -147,300 | -8.4%   |
|     | 小型  | 225,255   | -11,906  | -5.0%   |
|     | 中大型 | 137,870   | 25,012   | 22.2%   |
|     | 中型  | 549,323   | 105,501  | 23.8%   |
|     | 合计  | 2,525,589 | -28,693  | 32.5%   |
